view from inside

IMPORTANT!

The shower enclosure must be sealed **ONLY** on the outside.
DO NOT SEAL on the inside, should this process not be
respected, the company will not assume the responsibility
of any water leakage.

AFTERCARE INSTRUCTIONS

This product has an 'Idealclean' coating on the glass, which makes the glass easier to clean.

The following cleaning instructions need to be followed so as not to damage the coating.

After use, your shower should be cleaned with soap and water. This is particularly important in hard water districts where insoluble lime salts may be deposited and allowed to build up.

Cleaners of a gritty or abrasive nature should not be used. Care should be taken to avoid contact with strong chemicals such as organic solvents and strippers.

Glass cleaners can be used but with caution, if in doubt, contact the manufacturer of the cleaner in question.

Please keep these instructions for aftercare and customer service details.
